

USDA Export Verification (EV) Program Specified Product Requirements for Specified Risk Materials (SRM)-Free Bovine Inedible Raw Materials

1 Purpose

This USDA Export Verification (EV) Program for SRM-Free Bovine Inedible Raw Materials sets forth the requirements to produce SRM-free bovine inedible raw materials intended for use as an ingredient in U.S. animal feed and pet food that is offered for export to countries requiring the product to be free of bovine SRM.

2 Scope

This Program may be used by U.S. companies that supply bovine inedible raw materials intended for use as an ingredient in U.S. animal feed and pet food. Companies must meet the specified product requirements of this EV Program through an approved USDA Quality System Assessment (QSA) Program. The requirements for the QSA Program are defined in *ARC 1002 Procedure, Quality System Assessment (QSA) Program*. The QSA Program ensures that the specified product requirements are supported by a documented quality management system.

Inspections of rendering facilities that receive SRM-free bovine inedible raw materials produced under this Program are conducted by the USDA Animal and Plant Health Inspection Service (APHIS), Veterinary Services.

4 Requirements

- 4.1 U.S. companies must meet all applicable policies and procedures outlined in this document: ARC 1000 Procedure, and ARC 1002 Procedure.
- 4.2 Slaughter facilities must implement a QSA-EV Program to meet the requirements of this document.

"The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program (not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer." (Updated July 18, 2005)

5 Specified Product Requirements

- 5.1.1 For Canada, bovine SRMs must be removed from inedible raw materials. The following materials from cattle are specified risk materials: the brain, skull, eyes, trigeminal ganglia, spinal cord, vertebral column (excluding the vertebrae of the tail, the transverse processes of the thoracic and lumbar vertebrae, and the wings of the sacrum), and dorsal root ganglia of cattle 30 months of age and older; the tonsils of all cattle; and the distal ileum of all cattle. (9 CFR 310.22)

6 Shipping Documentation

- 6.1 Shipping documentation is not required when conforming product is delivered to an onsite rendering facility that is in conjunction with the harvest or processing facility.
- 6.2 Shipping documentation is required when conforming product is delivered to an offsite rendering facility that is not in conjunction with the harvest or processing facility.
- 6.2.1 Identification of conforming product during shipment and delivery must be documented on the shipping documentation (bills of lading, shipping manifests, or letters of guarantee). The shipping documentation must:
- 6.2.1.1 Clearly identify the product and product quantity; and
- 6.2.1.2 Contain the following statement: "Product meets EV Program requirements for production of SRM-free bovine inedible raw materials."
- 6.3 Shipping documentation is required when conforming product is delivered to a facility for inclusion in animal feed and/or pet food.
- 6.3.1 Identification of conforming product during shipment and delivery must be documented on the shipping documentation (bills of lading, shipping manifests, or letters of guarantee). The shipping documentation must:
- 6.3.1.1 Clearly identify the product and product quantity; and
- 6.3.1.2 Contain the following statement: "Product meets EV Program requirements for SRM-free bovine inedible raw materials."

7 Listing of Approved Programs

Only U.S. companies that have an approved USDA QSA Program that meets the specified product requirements for SRM-free bovine inedible raw materials are listed on the *Official Listing of Eligible Suppliers for the USDA EV Program for SRM-Free Bovine Inedible Raw Materials*.
